Cancer Management With Chinese Medicine Rencun Yu, Hai Hong

Significant advances made by Western medicine in the treatment of cancer are well-documented, but little has been written in English on complementary holistic treatment with Chinese medical methods that manage its symptoms and ameliorate the side effects of surgery, chemotherapy or radiotherapy. This book explains the complementary approach using cases from the medical files of Professor Rencun Yu, who was trained in Western medical oncology but also practices Chinese medicine. In addition, introductory chapters explain the basic principles of Chinese medicine, while other chapters cover the prevention of cancers through appropriate nutrition and living habits. The book should command the attention of medical professionals as well as the layperson interested in preventing and understanding the illness.

There is no equivalent book in English that so skillfully combines an introduction to Chinese medical principles and cancer management for the general reader with detailed clinical studies of the crucial complementary role played by Chinese medicine in Western treatments for cancer patients.

Readership: (i) Medical professionals, both Western medical doctors and TCM practitioners, particularly those practicing in Australia, Europe and America and
(ii) the lay reader who either wants general knowledge on how to prevent cancer or wishes to understand how TCM can help a friend, relative or loved one who suffers from the disease.
(iii) Also, libraries of TCM professional associations and teaching institutes.

From reader reviews:

Clyde Welch:

As people who live in the actual modest era should be change about what going on or info even knowledge to make these keep up with the era and that is always change and progress. Some of you maybe will update themselves by reading books. It is a good choice in your case but the problems coming to you actually is you don't know what kind you should start with. This Cancer Management With Chinese Medicine is our recommendation to cause you to keep up with the world. Why, as this book serves what you want and wish in this era.

Kelly Gomes:

Nowadays reading books become more than want or need but also become a life style. This reading practice give you lot of advantages. The huge benefits you got of course the knowledge the rest of the information inside the book which improve your knowledge and information. The info you get based on what kind of book you read, if you want have more knowledge just go with training books but if you want really feel happy read one along with theme for entertaining including comic or novel. The Cancer Management With Chinese Medicine is kind of reserve which is giving the reader unstable experience.

Maria Kim:

Information is provisions for people to get better life, information currently can get by anyone on everywhere. The information can be a knowledge or any news even an issue. What people must be consider any time those information which is in the former life are challenging be find than now could be taking seriously which one is appropriate to believe or which one the actual resource are convinced. If you get the unstable resource then you get it as your main information there will be huge disadvantage for you. All of those possibilities will not happen throughout you if you take Cancer Management With Chinese Medicine as your daily resource information.

Willie Bergeron:

What is your hobby? Have you heard that will question when you got college students? We believe that that query was given by teacher for their students. Many kinds of hobby, All people has different hobby. Therefore you know that little person like reading or as examining become their hobby. You need to understand that reading is very important as well as book as to be the thing. Book is important thing to include you knowledge, except your own teacher or lecturer. You find good news or update about something by book. Different categories of books that can you choose to adopt be your object. One of them is Cancer Management With Chinese Medicine.
