## **Economic Growth and Development** Hendrik Van Den Berg

This textbook by Hendrik Van den Berg on Economic Growth and Development presents a long-awaited synthesis of Development Economics and Growth Theory. It also incorporates the recent contributions to our understanding of economic growth from the fields of economic history and the new institutional economics. By basing its analysis on the recent advances in growth theory, the book offers a unified approach to all episodes of economic growth for countries at all levels of development and throughout history. Students will be comfortable with an analysis that enables them to understand economic growth in their own country as well as in economies very different from their own. The unified theoretical framework greatly facilitates students' understanding of the process of economic growth, and the many cases and examples highlight the fascinating diversity of our world.
