**Summary and Analysis:An Astronaut's Guide to Life on Earth** John Smith, Chris Hadfield

From the book it is just a life experience of a given person among the population of many. Am sure so many of us have buckets full of big dreams, bigger than the ones depicted in this article. What if we all, the billions of people, persevered in all the difficulties along the way? Would we still make our dreams true with the available resources? Note that, people are different but the kind of visions or virtual dream they have will never be negative nor small. You will never come across a person who wishes to be a thief but you can find one who dreams of getting a green source of energy from the sun. If these dreams could be true how could the world be?
