Bitnet 1.0 Next Generation Internet 2.0 may solve problems Internet 1.0 could not solve Predictions 2016 Bitnet uses Blockchain Bitcoin Technology: Why global youth may love Bitnet 1.0? M. Lawrence

For decades people had only one option. There is only one Internet 1.0. It was totally unimaginable to have another Internet until now. Bitnet 1.0 (2nd Internet with Next Generation Blockchain Bitcoin technology) may be the second Internet that young people have been waiting for. Internet 1.0 may be used by old people and Bitnet 1.0 (2nd Internet with Next Generation Blockchain Bitcoin technology) may be used by younger people with vision, hope, and ready to take control of their future with a new system that will prepare them for their new destiny in a world with digital currencies. For the first time in a millennium, did a technology create such a global movement so rapidly, powerfully and eagerly while creating jobs, opportunities, and a landscape that covers every industry and the opportunity for newer industries to be developed in the future and beyond. This millennium changing technology has the global youth in an uproar, flabbergasted, and full of vibrant energy ready to jump on the global digital currency revolution and movement of creating wealth and a better way of life. Digital currencies will have a platform to thrive, reshape the world, and create wealth for people all over the world. Bitnet welcomes the usage of all digital currencies and inspires the development of new digital currencies. The Bitnet platform makes it easy to circulate, create, and develop never digital currencies without interruption or disturbance to prepare for a brighter future and a new era of life. This new system can accommodate digital currencies safer and faster than the old internet and was made to facilitate digital currencies in a new era of 2016 and beyond. Bitcoin and digital currencies are more than a medium of exchange, monetary value, and finances. Blockchain Bitcoin technology covers a vast spectrum of unlimited potential in banking, farming, medicine, communication, cost cutting mechanisms, job skill enhancement, asset protection, escrow, real estate mechanisms, real estate asset investment mechanisms, newer forms of global investment, education, writing, currency, remittance, global wealth, jobs, opportunity, self-employment, independence, freedom, new life, new system, and changing the world.

You turn on your (Bitnet device) that is mobile and make a call abroad. It is not Skype. Skype is too old and can't be used on the Bitnet 1.0 network. It is not a cellular phone, nor is it the old Internet 1.0. Cellular phone technology is too old and can't be used on the Bitnet network. Then you send money to a family member within minutes using Bitcoin and Bitvoice (a newer digital currency) and without going to a bank, long lines, writing on forms, ID hassles, verification, checking, a stressful environment, disturbing questions, drama, and wasted time dealing with fussy bank tellers and rude banking employees. Now, you decide to go shopping on line. You search. You don't use Google. Google is not there and can't be used on the Bitnet 1.0 network. You don't use Yahoo. It is not there. You use a Bitoogle search. There are no hackers around trying to steal your Bitcoin. You are using a new system. You are using the 2nd Internet. You move with amazing speed while surfing. This is not the old style Internet 1.0. There is no Mirocosoft on this Internet (Bitnet 1.0). There is no Internet Explorer. Internet Explorer is too old and can't use it on the Bitnet 1.0 network. You are in the Bitzone. Welcome to the world of Bitnet 1.0 (2nd Internet with Next Generation Blockchain Bitcoin technology) and creating a new destiny for Internet global users. No Google Nexus can be used on Bitnet 1.0, no Apple iPhone can be used on Bitnet 1.0, no LG G4 can be used on Bitnet 1.0, no Samsung Galaxy can be used on Bitnet 1.0 no BlackBerry Priv can be used on Bitnet 1.0, no OnePlus X can be used on Bitnet

1.0, no Vodafone Smart Prime 6, and no Samsung Galaxy S6 Edge+ can be used on Bitnet 1.0... (Read and continue in the book.)
