If you tend to shake your head when you read religious literature, please read this book. I invite being disagreed with; I welcome debate and do not object to being told I am wrong. The question remains: Who has the right religion? Despite being an octogenarian when presumably all should be settled and nailed down, I now challenge the theology I nodded to so vigorously in a previous time of my life. What I once assumed as truth is now open to the kind of tough scrutiny I had never dared engage in. My theological life scripts were deeply rooted and beyond challenge. Born and raised in a fundamentalist Mennonite conservative evangelical community, doubting and questioning were considered acts of sin. Even though we were good ethical people, we were repaganized every year by visiting English speaking evangelists and getting saved was an annual event. I know; I did it three times before I was fifteen. I include a simple caveat. Once you start critiquing and investigating your beliefs, even the most cherished, you will find that you cannot go back. The very act of questioning intensifies the importance of the question. Millions of books exist about God; every book written by a human being (mostly men). Over twenty five miles of shelves with books about God are in the archives under the Vatican. I had fifteen shelves with many books that talk about God.
