Commercial Redemption: The Hidden Truth David E. Robinson

An allegory is the expression of truths about human conduct and experience by means of symbolic fictional figures and actions. Such was the movie *The Wizard of Oz*, an allegory of the state of affairs we now live in today — an allegory of the unfolding New World Order that was instituted in America via the stock-market crash of 1929 and the bankruptcy of the United States in 1933. The setting of this allegory is in Kansas — the “heartland” of America; the geographical center of the U.S.A. In came the twister — the whirling confusion of the Great Depression, the stock-market crash, the U.S. bankruptcy, and the theft of America’s gold — that whisked Dorothy and Toto up into the New Order of the World; an artificial new dimension “somewhere, over the rainbow,” above the solid ground of Kansas. When they landed in Oz, Dorothy commented to her little dog Toto: “Toto? I have a feeling we’re not in Kansas anymore . . .” Exactly!.
