World Criminal Justice Systems, Ninth Edition, provides an understanding of major world criminal justice systems by discussing and comparing the systems of six of the world's countries -- each representative of a different type of legal system. An additional chapter on Islamic law uses three examples to illustrate the range of practice within Sharia. Political, historical, organizational, procedural, and critical issues confronting the justice systems are explained and analyzed. Each chapter contains material on government, police, judiciary, law, corrections, juvenile justice, and other critical issues.

The ninth edition features an introduction directing students to the resources they need to understand comparative criminal justice theory and methodology. The chapter on Russia includes consideration of the turmoil in post-Soviet successor states, and the final chapter on Islamic law examines the current status of criminal justice systems in the Middle East.
