Cancer Incidence in Five Continents: Volume V (International Agency for Research on Cancer Scientific Publications)

This unique collection of information provides compilations of cancer morbidity data from 105 registries covering 137 population groups in 36 countries. In addition to age-specific incidence rates, age-standardized, truncated and cumulative incidence rates are given by sub-sites. The book offers no interpretation of the data, allowing readers to draw their own conclusions from the facts.
