The Gift john thompson

Kevin was created in the future. He was designed to live a thousand years to help a group gain power and keep it. A future version of himself takes him as a baby to the past (he finds this out during the story). When he's 14 he finds out he is going to live forever. He will have a great life for centuries, if he can make it to his wedding day. At 18 he is about ready to graduate from early college with his best friend Hayden, who is going to marry him. Will he make it to the altar or will two people that Hayden and he know stop them? While at 18 they have sex, you do NOT read anything of an adult nature in the story. Everything is PG 15 up.
