Neurocomic Hana Ros

Do you know what your brain is made of? How does memory function? What is a neuron and how does it work? For that matter what's a comic? And in the words of Lewis Carroll's famous caterpillar: "Who are you?"

Neurocomic is a journey through the human brain: a place of neuron forests, memory caves, and castles of deception. Along the way, you'll encounter Boschean beasts, giant squid, guitar-playing sea slugs, and the great pioneers of neuroscience. Hana Roš and Matteo Farinella provide an insight into the most complex thing in the universe.

- Produced in association with the Wellcome Trust, one of the world's largest medical charities
- A superb introduction to the complexities of the brain for the layman
- High production values, FSC paper stock, and foil embossed cover

Hana Roš, PhD, is a neuroscientist from Oxford University, England.

Matteo Farinella, PhD, is an illustrator specializing in graphic journalism and scientific illustration. Farinella received a PhD in neuroscience from University College London in 2013.
