Entering Space: Creating a Spacefaring Civilization Robert Zubrin

"Robert Zubrin is a true engineering genius like the heroic engineers of the past."

--**Frederick Turner, American Enterprise**

Using nuts-and-bolts engineering and a unique grasp of human history, **Robert Zubrin** takes us to the not-very-distant future, when our global society will branch out into the universe. From the current-day prospect of lunar bases and Mars settlements to the outer reaches of other galaxies, Zubrin delivers the most important and forward-looking work on space and the true possibilities of human exploration since Carl Sagan's *Cosmos*.

Sagan himself said of Zubrin's humans-to-Mars plan, "**Bob Zubrin** really, nearly alone, changed our thinking on this issue." With **Entering Space**, he takes us further, into the prospect of human expansion to the outer planets of our own solar system--and beyond.
