Michael Saylor

The Mobile Wave: How Mobile Intelligence Will Change Everything Michael Saylor

In the tradition of international bestsellers, *Future Shock* and *Megatrends*, Michael J. Saylor, CEO of MicroStrategy, brings *The Mobile Wave*, a ground-breaking analysis of the impact of mobile intelligence—the fifth wave of computer technology.

The Mobile Wave argues that the changes brought by mobile computing are so big and widespread that it's impossible for us to see it all, even though we are all immersed in it. Saylor explains that the current generation of mobile smart phones and tablet computers has set the stage to become the universal computing platform for the world. In the hands of billions of people and accessible anywhere and anytime, mobile computers are poised to become an appendage of the human being and an essential tool for modern life.

With the perspective of a historian, the precision of a technologist, and the pragmatism of a CEO, Saylor provides a panoramic view of the future mobile world. He describes how:

- A Harvard education will be available to anyone with the touch of a screen.
- Cash will become virtual software and crime proof.
- Cars, homes, fruit, animals, and more will be “tagged” so they can tell you about themselves.
- Buying an item will be as easy as pointing our mobile device to scan and pay.
- Land and capital will become more of a liability than an asset.
- Social mobile media will push all businesses to think and act like software companies.
- Employment will shift as more service-oriented jobs are automated by mobile software.

Products, businesses, industries, economies, and even society will be altered forever as the Mobile wave washes over us and changes the landscape. With so much change, *The Mobile Wave* is a guidebook for individuals, business leaders, and public figures who must navigate the new terrain as mobile intelligence changes everything.

Do you want to try this extraordinary shelling out spare time activity?

Alfred Gates:

As a university student exactly feel bored in order to reading. If their teacher expected them to go to the library or even make summary for some e-book, they are complained. Just small students that has reading's heart and soul or real their pastime. They just do what the professor want, like asked to go to the library. They go to at this time there but nothing reading really. Any students feel that reading is not important,

boring along with can't see colorful pics on there. Yeah, it is for being complicated. Book is very important for yourself. As we know that on this period, many ways to get whatever you want. Likewise word says, ways to reach Chinese's country. So , this The Mobile Wave: How Mobile Intelligence Will Change Everything can make you experience more interested to read.
