Beginning ASP.NET E-Commerce Cristian Darie, Karli Watson
Beginning ASP.NET E-Commerce shows you how to build a full e-commerce website. Guiding you through every step of the design and build process, this book will have you building high quality, extendable e-commerce websites quickly and easily.

To get the site up and running quickly, we build in phases. The first puts your site live on the web, using an online service to handle the shopping cart, checkout, and payment. The second adds an ASP.NET shopping basket and checkout. Finally we'll add our own order processing system – complete with credit card processing, data storage, and order tracking.

With Beginning ASP.NET E-Commerce you will learn to:

Use n-tier techniques to create a scalable, extendable online application The book's P2P forum provides a platform for discussing extensions and changes to the site with other readers.
