Jack Morgan was doing just fine until Sally got on the plane. At least, that is what he thought.

Jack is an American archaeologist, trying to trace a priceless South American artefact which has recently been stolen from the British Museum.

Sally is a robotic secret agent, a Fembot newly assigned to MI6 and intent on preventing the relic from falling into the wrong hands.

A group of sinister neo-Nazis are already making their way on foot through the Amazon Jungle, with the artefact in their possession. Not far behind them – and in hot pursuit – are a cabal of Russian Communists, who already have possession of a second relic.

Legend has it that if these two artefacts are united with a third, more powerful object, the holder will be granted unimaginable power.

The Nazis have a head start, but the race to find the Lost Fortress of the Eebieki People has only just begun.
