Heisenberg uncertainty principle - an Illusion- Quantum Tunneling and Mind: Science without Religion is Blind and Religion without Science is Lame - Einstein (Part 12)

Dr Vijay Mohan Das

Heisenberg uncertainty principle - an Illusion- Quantum Tunneling and Mind: Science without Religion is Blind and Religion without Science is Lame - Einstein (Part 12) Dr Vijay Mohan Das

There are two types of physical effects . One is classified as classical physics and other one is classified as quantum physics . The basis of these two types of physic is THOUGHT EXPRESSIONS (Fig -4) . If there are fixed thought expressions , it will lead to fixed effects which could be precisely predicted . Hence Classical physics comes into existence . But if the thought expressions are changing, it would lead to changing effects which cannot be precisely predicted. Hence it will lead to quantum phenomenon making the quantum physics. In tunnel effect the barrier's thought is changing every time and we could not precisely predict (being observer) that which particle will tunnel out when , hence it is called quantum tunneling effect. There is probability of being tunnel out , hence uncertainty principal comes into play. Though every tunneling was prefixed (destined) by highest center of the universe during precreation era and it is the highest center which could predict every tunneling effect (quantum effect) precisely . Hence Heisenberg uncertainty principle is an illusion in all quantum phenomena . That is why Einstein had said ,” God does not play dice”. Our universe is deterministic universe and every quantum effect would be precisely predicted only by Highest center of the universe because it had fed its thoughts in precreation era to each B.B.Bs that would take part in quantum phenomena.

CONCLUSIONS-

1. It is being believed that - As a consequence of the wave–particle duality of matter, tunnelling is often explained using the Heisenberg uncertainty principle. It is all MYTH and Illusion.
2. Participatory science proved that both electron and potential barrier are divine units and the divine activity is atomic transcription and translation or thought expression . Every tunneling phenomenon could be precisely predicted in future by highest center of the universe
3. If the theory does not have MIND to explain it , it is wrong theory . Hence theory given by SCHRODINGER is wrong .

DISCUSSION

Modern physicists believe that electrons as well as interacting barrier are physical units . Participatory science has proved them divine units and divinity is due to presence of atomic genes on basic building blocks (B.B.Bs.) , the fundamental particles and divine activity or fundamental activity of the nature is atomic transcription or thought expressions.

To answer how laws of physics are made is now easy due to the research of fundamental particles i.e. B.B.Bs and Atomic Genetics.

Mathematics alone is unable to explore the reality behind any classical and quantum phenomena. Participatory science is ultimate science to know about any phenomenon of the universe. Without this science, transparency in explaining any phenomenon is absent.

MESSAGES TO BE DELIVERED

1. Biological Aspects should be taken into consideration while making the curriculum of physics at the undergraduate level.
2. Conceptual functions and understanding of MIND would give a better understanding of physical phenomena during their course at undergraduate level.
3. The theory of everything is THOUGHT EXPRESSION rather than anything else.

From reader reviews:

Sherry Spears:

In this 21st millennium, people become competitive in most way. By being competitive now, people have do something to make all of them survives, being in the middle of the crowded place and notice through surrounding. One thing that occasionally many people have underestimated that for a while is reading. Yeah, by reading a publication your ability to survive increase then having chance to remain than other is high. For yourself who want to start reading the book, we give you this specific Heisenberg uncertainty principle - an Illusion- Quantum Tunneling and Mind: Science without Religion is Blind and Religion without Science is Lame - Einstein (Part 12) book as beginner and daily reading publication. Why, because this book is greater than just a book.

Gina Dana:

Reading a book can be one of a lot of action that everyone in the world enjoys. Do you like reading book therefore. There are a lot of reasons why people like it. First reading a guide will give you a lot of new details. When you read a reserve you will get new information mainly because book is one of several ways to share the information or maybe their idea. Second, examining a book will make you more imaginative. When you reading a book especially fiction book the author will bring you to definitely imagine the story how the figures do it anything. Third, you may share your knowledge to others. When you read this Heisenberg uncertainty principle - an Illusion- Quantum Tunneling and Mind: Science without Religion is Blind and Religion without Science is Lame - Einstein (Part 12), you can tells your family, friends along with soon about yours book. Your knowledge can inspire different ones, make them reading a publication.

Jean Mora:

A lot of people always spent their free time to vacation or go to the outside with them family or their friend. Do you realize? Many a lot of people spent many people free time just watching TV, as well as playing video games all day long. If you would like try to find a new activity this is look different you can read any book. It is really fun for you personally. If you enjoy the book that you simply read you can spent all day every day to reading a book. The book Heisenberg uncertainty principle - an Illusion- Quantum Tunneling and Mind: Science without Religion is Blind and Religion without Science is Lame - Einstein (Part 12) it doesn't matter what good to read. There are a lot of folks that recommended this book. These folks were enjoying reading this book. Should you did not have enough space to create this book you can buy the particular e-book. You can m0ore very easily to read this book through your smart phone. The price is not too expensive but this book possesses high quality.

Loren Hatmaker:

Why? Because this Heisenberg uncertainty principle - an Illusion- Quantum Tunneling and Mind: Science

without Religion is Blind and Religion without Science is Lamé - Einstein (Part 12) is an unordinary book that the inside of the reserve waiting for you to snap that but latter it will shock you with the secret it inside. Reading this book close to it was fantastic author who also write the book in such remarkable way makes the content on the inside easier to understand, entertaining method but still convey the meaning completely. So , it is good for you because of not hesitating having this anymore or you going to regret it. This unique book will give you a lot of gains than the other book get such as help improving your talent and your critical thinking approach. So , still want to postpone having that book? If I were you I will go to the book store hurriedly.
