Threshold: The Crisis of Western Culture Thom Hartmann

An urgent look at our world's looming crises and what we must do to avert them

In *Threshold*, writer and Air America host Thom Hartmann looks at the deteriorating state of our planet, where the dynamics of environmental, economic, and population change are boiling over the limits within which society can function. In clear and impassioned prose, Hartmann busts the myths and ideologies of religious fundamentalism, capitalism run amok, male domination, and militarism that are draining our world of its natural and human resources and engendering the suffering of millions for the benefit of the few.

No mere jeremiad, *Threshold* examines cultures that have thrived, from the mother city of Caral, Peru, to modern Denmark, and targets five areas of policy-national, religious, economic, corporate, and environmental-for specific and immediate reform. Radical in its scope and boldness but simple in its commonsense logic, *Threshold* illustrates the mistakes we have made-as a culture, as a country, and as individuals-and provides the inspiration and motivation readers are looking for to build a better, more sustainable world for all. Part prophecy, part call to arms, part policy prescription, *Threshold* is, for readers of Jared Diamond, Thomas Friedman, and Paul Hawken, the wake-up call our society so badly needs.
